7409.pdf (18 KB) 28.0701PSD_permit 2011 Response to
_proposed.pdf... Comments.pdf ...

Dear Mr. Phillip Hey:

Thank you for submitting comments on the amended draft Prevention of Significant Deterioration (PSD) preconstruction air quality permit for Hyperion's proposed energy center. Hyperion proposes to construct and operate a petroleum refinery and power plant in Union County, South Dakota.

The Department of Environment and Natural Resources (DENR) received comments from approximately 350 individuals, small businesses, environmental groups, the U. S. Environmental Protection Agency, the U.S. National Park Service, Hyperion, Tribes and others. DENR has reviewed and responded to those comments in a document this is approximately 80 pages long, and where appropriate, incorporated changes into the amended air quality permit based on those comments. Please find a copy of the Response to Comments document and Amended permit enclosed.

The Board of Minerals and Environment will hold a "Contested Case Hearing" on the amended air quality permit on July 25, 2011. If you desire to participate in this "Contested Case Hearing", as a formal party to the proceedings, you must submit a Petition to Intervene or submit a Petition for a Contested Case. DENR must receive any Petition within 30 days of your receipt of this letter. A petition must comply with the Administrative Rules of South Dakota 74:09:01:01 (copy enclosed). If you choose not to be a formal party, you can still attend as the hearing will be open to the public.

If you have any questions, please do not hesitate to give us a call at 605-773-3151. Again, I want to thank you for submitting comments and for your cooperation during the public review process.

Sincerely,

Kyrik Rombough
Natural Resources Engineering Director
Air Quality Program

Dear Ms. Madonna Nitzke:

Thank you for submitting comments on the amended draft Prevention of Significant Deterioration (PSD) preconstruction air quality permit for Hyperion's proposed energy center. Hyperion proposes to construct and operate a petroleum refinery and power plant in Union County, South Dakota.

The Department of Environment and Natural Resources (DENR) received comments from approximately 350 individuals, small businesses, environmental groups, the U. S. Environmental Protection Agency, the U.S. National Park Service, Hyperion, Tribes and others. DENR has reviewed and responded to those comments in a document this is approximately 80 pages long, and where appropriate, incorporated changes into the amended air quality permit based on those comments. Please find a copy of the Response to Comments document and Amended permit enclosed.

The Board of Minerals and Environment will hold a "Contested Case Hearing" on the amended air quality permit on July 25, 2011. If you desire to participate in this "Contested Case Hearing", as a formal party to the proceedings, you must submit a Petition to Intervene or submit a Petition for a Contested Case. DENR must receive any Petition within 30 days of your receipt of this letter. A petition must comply with the Administrative Rules of South Dakota 74:09:01:01 (copy enclosed). If you choose not to be a formal party, you can still attend as the hearing will be open to the public.

If you have any questions, please do not hesitate to give us a call at 605-773-3151. Again, I want to thank you for submitting comments and for your cooperation during the public review process.

Sincerely,

Kyrik Rombough
Natural Resources Engineering Director
Air Quality Program

Subject: Hyperion Final Permit Decision

7409.pdf (18 KB) 28.0701PSD_permit 2011 Response to
_proposed.pdf... Comments.pdf ...

Dear Dr. Jane Hey PH.D:

Thank you for submitting comments on the amended draft Prevention of Significant Deterioration (PSD) preconstruction air quality permit for Hyperion's proposed energy center. Hyperion proposes to construct and operate a petroleum refinery and power plant in Union County, South Dakota.

The Department of Environment and Natural Resources (DENR) received comments from approximately 350 individuals, small businesses, environmental groups, the U. S. Environmental Protection Agency, the U.S. National Park Service, Hyperion, Tribes and others. DENR has reviewed and responded to those comments in a document this is approximately 80 pages long, and where appropriate, incorporated changes into the amended air quality permit based on those comments. Please find a copy of the Response to Comments document and Amended permit enclosed.

The Board of Minerals and Environment will hold a "Contested Case Hearing" on the amended air quality permit on July 25, 2011. If you desire to participate in this "Contested Case Hearing", as a formal party to the proceedings, you must submit a Petition to Intervene or submit a Petition for a Contested Case. DENR must receive any Petition within 30 days of your receipt of this letter. A petition must comply with the Administrative Rules of South Dakota 74:09:01:01 (copy enclosed). If you choose not to be a formal party, you can still attend as the hearing will be open to the public.

If you have any questions, please do not hesitate to give us a call at 605-773-3151. Again, I want to thank you for submitting comments and for your cooperation during the public review process.

Sincerely,

Kyrik Rombough
Natural Resources Engineering Director
Air Quality Program
